

PAR FOR THE COURSE

# Golf Mat

Armacell knows practice makes perfect, that's why we manufacture a range of shock pads engineered to provide just the right feedback from users of practice golf mats. Golfers want a training mat that replicates the feel of a real course and that lasts for years of swings and putts. So grab your clubs and get ready to knock strokes off your game. **Fore!**

- // Flexible, comfortable shock pads
- // Real turf-like feel
- // For indoor or outdoor use
- // Premium first-run material, not scrap
- // Made in USA

# Get that Fairway Feeling

Amateurs and pros alike use golf mats to improve their game. Whether they are practicing long drives outdoors, precise swings in a simulator or short putts in the office, they appreciate a golf mat with a real turf-like feel that emulates the fairways and greens they regularly play. Armacell's golf mat shock pads offer that "fairway" feel with the right combination of air and elasticity. Our closed-cell foam pads are high-quality, first-run material — not scraps that are pieced together — so they give a consistent feel across the mat. All material is produced in the USA and shipped in roll form.

---

## TWO PRODUCT FAMILIES TO CHOOSE FROM:

ArmaSport® TU2 is our premium shock pad. A black closed-cell, PVC/NBR, rubber-based foam padding that gives the most realistic feel. It's flexible, comfortable and durable for years of play. Synthetic turf should be bonded with contact adhesives.

OleTex® CDJN 400 and 440 are our more economical options. A black closed-cell, cross-linked polyethylene (XPE) foam padding that is still consistent, flexible and durable. It's non-permeable and an excellent choice for wet conditions. Hot melt joining is recommended for XPE bonding.

---

## ARMACELL GOLF MAT TECHNICAL PROPERTIES

Name	Material	Adhesion	Thickness	Width	Length	Density (lb/ft <sup>3</sup> )	25% Compression Deflection (psi)	Water Absorption (lb/sq ft)	Color
ArmaSport TU2	PVC / NBR	Chemical	5/8" [15 mm]	60"	180 FT	6.5 - 8.5	6 to 9	0.10 Max	Black
ArmaSport TU2	PVC / NBR	Chemical	3/8" [9.5 mm]	60"	200 FT	6.5 - 8.5	6 to 9	0.10 Max	Black
OleTex CDJN 400	XLPE / EVA	Hot Melt	5/8" [15 mm]	64"	200 FT	4.0	8.4	< 0.07	Black
OleTex CDJN 440	XLPE / EVA	Hot Melt	3/8" [9.5 mm]	64"	335 FT	4.4	8.8	< 0.07	Black

Other sizes and material options available.

## GOLF MAT APPLICATIONS

- // Commercial and Residential Use
- // Indoor and Outdoor
- // Putting Greens
- // Golf Simulator Pads
- // Driving Range
- // Tee Lines
- // Golf Academy
- // Floating Golf Greens
